- Areas Affected set to Hotel Sales report

- Files Changed set to CommonProjects\DataProvider\Reports\ReportsDA.cs

CommonProjects\Common\Settings.cs

issue due to select the outdated refund to customer data from DB, in this case, no agency filter applied. Added a config key and update the function with agency check.

Get sales report details for Hotel booked details for all status in which refund to customer date is outside the selected date range. Need to set the key as true to show the data.

<add key="ShowHotelRefundOutdated" value="true" />

SPo : Usp_GetSalesReport_HotelAllStatus
