Description

In sales report when Hotel - transaction status (ALL) and individually refunded to customer selected and checked Bookings

we can see the dates came was wrong

example TPN727 transaction id with reconfirmed status and Refunded to customer status.

This was booked on 22/08/2017 but i have filtered in sales report from 1st april 2018 to 22 april 2018.

Hence the reconfirmed data should not be shown. Now it is displayed , please fix.

Please check with me if any doubt exist

History
