1) while searching for another city result was loading, Please specify for which all API the issue exist and also specify does the issue occurs when

using static data or not.

2)The issue is due to in the Keys.xml in admin side for miki provider the key for user name is not correct. The value should be given as follows.

```
<api id="13" name="MikiNetHotel">
  <key>
    <name>User Name</name>
    <type>text</type>
    <value>UserName</value>
  </key>
```
