Description

- In Train passenger details page, while we select an itinerary from the saved members list, the date of birth and month of birth is automatically changed to the first passengers date of birth and month of birth

For example if the first passenger date of birth is 16/07/1997 and the second passenger date of birth in the list is 21/02/2017, when we select the itinerary from the list the date of birth is automatically changed to 16/07/2017

- For some particular entries the pax nationality is displayed as "Null", if their is no value for nationality field make the field as empty
