Description

agency notification limit mail is not getting..

for example:If my Credit Limit is 100 and I give Notification Limit as 10% then receive mail after my balance is 10 or below 10..as of now its not getting..

Spend 2 hr to get the latest version of the project and fix the build error and get the result. Check the ValidateCreditDepositLimitForEmailNotification function in utility up to credit limit there was no issue and the

low balance in account mail get correctly .Now need to check the agency price below 10 and the hotel kwd below 10.For this,

add discount on agency but the kwd price will not change.

- End_Date set to 05/28/2019

Check the agency hotel with credit ballance is 117.564. Book hotel up to its notifictaion limit (ie, 10)
then try to book a hoetl with kwd less than 10 to get the issue.Spend many time to find a hotel with
kwd less than 10. Finaly found the hotel with kwd less than 10. but the booking is can't be possible in this
selected hotel so check the travelFusionHotel provider,CredentialID,Gatewayservice to fix the hotel booking problem spend
2.15 hrs to solve the issue. Then check the issue by the function ValidateCreditDepositLimitForEmailNotification().
check the issue in agency nnnn,hotel and in travel. In agency hotel make the agency balance 7.922 then
book new agency with kwd below 10 on booking hotel again technical difficulty error occurs. Then
book the hotel with kwd below 10 and got the low balance mail. Then also check the same
condition with another agency and got the low balance mail .
